

Bellsouth has charged me over \$400 for line repairs in the past 2 months and the problem still exists! I was charged twice for phone repairs when I was no one was at home. I have been overcharged several times and bellsouth tells me to pay the bill or have my service disconnected. I have lived at my address for less then 3 months and have paid over \$500 in repair and setup fees. Bellsouth is ripping off their customers for repairing bellsouths lines! I hate bellsouth and will switch to a cellualr and never use land line service ever!
